Regarding independent claim 6, the prior arts fail to teach “means, in communication with said means for generating and providing an oscillator signal, for generating a second frequency synthesized signal from said oscillator signal; means, in communication with said means for generating a second frequency synthesized signal and said means for down converting, for combining said second synthesized signal with said second block down converted satellite television signal, and to produce a second combined signal therefrom; and means, in communication with said means for combining, for filtering a second coarse tuned signal from said second combined signal”, as cited in the claim.
